

Dear Visitors and IWDM Study Library Supporters,

As Salaam Alaykum!

As of 05/18/2016, the IWDM Study Library continues as a private research and education project and we are making good progress! Our transcription project has picked up more steam; we have more transcription builders donating monthly, which enables us to keep transcripts going continuously! Allahu Akbar! However, at the current pace it will take 10 years to complete. So, we need more transcription builders helping out.

For now, we will wait and see what transpires over the next months regarding Imam Mohammed's intellectual property and we will keep you abreast of any important developments.

In time, we pray that an opportunity to make the Study Library available to the world will present itself. In the meantime, there is still a lot of work to do.

May Allah reward us all for our efforts and give us a great future. Ameen.

Mubaashir Uqdah
IWDM Study Library
